On 29 April 2022, EFRAG launched a [public consultation](#) on its Exposure Drafts on Draft European Sustainability Reporting Standards. The public consultation is seeking views on the proposed disclosure requirements, including their adequacy, the way the CSRD principles have been implemented and possible options for phasing-in the implementation.

In this context, EFRAG and OIC are organising a joint outreach event and invite all interested stakeholders to participate. Italian contributors will provide their views on the proposed disclosure requirements and will further comment from their perspective on the EDs of Draft ESRS. The audience will be able to interact, raise questions and answer polling questions that will be commented by the speakers.

Programme will follow in due course.
